## Employment

PKWare (2020 – 2021)

Apple Platform Engineer

Worked on personal file encryption software for macOS and iOS, as well as internal libraries to support these.

Completely redesigned the iOS app from the ground up to focus on core competencies, improve accessibility, and optimize flow.

Ionic Security (2017 – 2019)

Software Engineer III

Engineered user-facing file encryption and access software for macOS. Collaborated on a company-wide software platform to allow such client software to be made consistent on many other platforms, including macOS, Android, Windows, and iOS.

Worked closely with UI/UX team to hone the design of multiple company products, including graphics, animations, user flows, and overall experience.

Renewed Vision (2016 – 2017)

macOS Software Engineer

Built industry-leading professional presentation software for macOS. Collaboratively created software platforms with open-source & proprietary tech: advanced auto font scaling, inspector, & animated grid item selector.

Designed dozens of icons & other graphics, user flows, interface approaches, animations, and more.

NCR — Small & Medium Business (2015 – 2016)

Mobile Software Engineer

Built state-of-the-art point-of-sale software for iOS & Android. Implemented headlining features such as 64-bit support, EMV payments, scale-weighting of items, & future orders, including any hardware drivers necessary for these.

Worked alongside UI design team to revamp the system's look-and-feel.
